*Around 14000€ but if I withdraw the money for anything else than buying a house in the UK or Retirement, it will subtract 25%. I'm not counting on this money, it will only be used if we're totally distressed.

** Brother's debt to my parents, that they want to give it the same to me. I don't remember the exact number but its between 55k and 65k. The majority of this money is available but its in cash it might be difficult to move via bank transfer. My dad said when I move to Viseu he would give me 5k at a time so I could use to cover my expenses. I know it sounds dodgy, I think I have explained this situation but I am happy to clarify everything about it.

1,500 €	(1100€ Rent + 200€ Utilities + 200€ Internet&Others)	Very Very Confortable Option	17 months

*You probably noticed that I'm not counting on Groceries expenses or Petrol. This will be covered by cash given by my parents. I would say we would spend around 400€ to 600€ monthly, maybe up to 750€ (if we would dinner out a lot), although it can be a lot less. All this is all hypotetical, and based on my experience when i lived in Lisbon. Viseu's Living cost is a lot less expensive.

If we spend 750€ per month (24 months) = 18,000€

60,000 - 18,000 = 42,000€
